

## JAC Indonesia streamlines core services and launches One-Stop Solution

---

For immediate release: 6 September 2022

Today JAC Indonesia launched One-Stop Solution (OSS), a service that offers hands on support and advice to companies who are looking to expand, establish, grow, attain high level support, explore expatriate hiring as well as those who may be planning on closing their business in Indonesia.

JAC Indonesia's One-Stop Solution has been introduced to help companies in Indonesia manage and scale their businesses more effectively without having to engage with multiple service providers. The streamlined bundles will offer clients access to multi-disciplinary human resources, legal, financial services, and ongoing consultative advice. The service will also allow companies who do not have an entity within Indonesia to be able to conduct business.

"At JAC, *people first* has always been at the core of how we run our business," shares Adil Driouech, Group Managing Director of JAC Group (ex-Japan). "By consolidating our services, we hope to simplify the business process for our clients, with recruitment at the core."

One-Stop Solution is the first of its kind to be launched in Indonesia in the form of consolidated packages. Combining essential business services required by businesses in their lifecycle, startups, small businesses, and companies in Indonesia will now be able to source exceptional talent, receive consultative legal, tax and HR advice as well as manage costs, by outsourcing their accounting, payroll, and tax needs, all in one place. Each service will be accessible to them through packages that have been designed to support each phase of their business journey.

"Indonesia's economy advanced by 5.44% YoY in Q2 of 2022\*, following a 5.01% gain in the previous quarter which has beat the market consensus of a 5.17% gain. This indicates that there is a steady growth of companies entering the Indonesian market," shares Adil. "Indonesia is growing at an exponential rate and with OSS we'll be ready to help companies looking to expand here."

JAC Indonesia is a leading full-cycle business consultancy with over twenty years of experience in helping clients with their outsourcing, recruitment, and consulting needs. Over the past two decades JAC Indonesia has helped clients with business entry, market research, recruitment, accounting outsourcing as well as advice on all legal, tax and HR matters.
